## 1 Introduction

In the following pages an attempt is made to give an overview of the variables characterizing the designs of Matchbox Series 1-75 picture boxes from the very beginning in 1953 until the very end of individual picture boxes in 1982. Furthermore there are detailed descriptions and listings of all individual boxes made for Matchbox Series 1-75 models from 1953 to 1982 which are known to exist.

It is understood that this compilation of listings is just a beginning and by far not complete, as the information used to produce it comes from my own humble collection, from studies of various kinds of Matchbox literature and from some notes taken at a few swapmeets from 1996 to 1999. However, I hope this approach to take into account all relevant variables and produce completely systematic and uniform listings which can easily be extended by additional information made available does indeed make sense.

The abbreviations used for the values of variables in the listings have been designed for easy memorizing. It should be possible for anyone after a little studying to inspect any particular box and within a few seconds tell which variation it is. I believe this approach is superior to a classification by sequential numbers or letters, which are rather difficult to keep in memory.

Every fellow collector is encouraged to go through his own collection with this compilation of listings and note any variations he might have that are missing in it. I would be grateful for any comments, suggestions, criticisms and information on additional variations, if possible (and meaningful) accompanied by black and white photocopies.

Furthermore I want to make it perfectly clear that I have no objections whatsoever against anybody making copies of these listings and passing them on to other people who might be interested. The more collectors see these listings and get the chance to contribute, the bigger improvements of the listings in both quantity and quality will be possible. I think a listing which is as accurate and complete as possible is for the benefit of all Matchbox collectors who are seriously interested in the subject.

I wish to express my gratitude to the following people who have made contributions towards the improvement of this listing (in alphabetical order): Joyce & Mike Appnel, Mike Boss, Mark Bumbera, Eva & Steve Gal, Andreas Göpfert, Gary Hirst, Gerald Kapl, Charlie Mack, Ruud Otten, Ralph-Egbert Richter, Frank Sygusch, Mathias Zogg, as well as the authors of the publications mentioned in the next section.

## **2 Literature**

Apart from the magazines issued by the UK Matchbox, MICA and Matchbox U.S.A. clubs, the following publications have had much influence on the present compilation:

Graham Ward, The Box Catalogue, 1953-1978 Variations, 2nd Edition, Stafford, England 1978

The "mother of all box catalogues", i.e. the first and original work published on the subject. It contains very detailed descriptions of the various box designs, even expanding to the small lettering on the end flap closers, but tends to be a bit difficult to survey. It makes no attempt to list box variations for individual models, and as it was published at a time when picture boxes were still current, the information on the later boxes made after 1975 is by necessity incomplete. The same author published another work in 1981, which unfortunately I have not seen so far.

Philip Bowdidge, "Matchbox" Boxes 1 to 75 1953-1964, Supplement No. 4, New Milton, England 1990

The definitive unsurpassable work on the earlier boxes, providing black and white photocopies of each and every individual box design, as well as details of the actual model variations that came in each box.

John Hanchet, The Matchbox Picture Boxes, 1-75 Regular Wheels 1962-1970, Essen, Germany 1995

A very thorough detailed listing of the regular wheel boxes of the sixties, accompanied by colour photographs. The existence of this work and the perceptible demand for its continuation into the Superfast era was the major instigation to produce the present compilation.

Geoffrey Leake, A Concise Catalogue of 1-75 Series "Matchbox" Toys by Lesney, 3rd Edition, Worcester, England 1992

Probably the best pocket-sized catalogue on the models themselves. It is mentioned here because most of the information on Japanese boxes was derived from it.

### **3 Overview of Box Generations**

The basic definition of Matchbox box generations has generally been established in the late seventies, and there is no need for any major changes. Only the last types issued from 1975 onward have not been classified properly until now. My decision to divide this last phase into three generations is open to debate, but is justified by obvious differences in the appearances of these boxes.

Details are to be found in the descriptions of the individual box generations. The purpose of the following list is just to give a brief overview:

<b>Type</b>	<b>Description</b>	<b>Years of issue</b>
<b>A</b>	line drawing, A Moko LESNEY (script) in scroll	1953-54
<b>B</b>	line drawing, A MOKO LESNEY (capitals) in scroll	1955-60
<b>C</b>	line drawing, A LESNEY in scroll	1961
<b>D</b>	colour picture, "MATCHBOX" Series in arch	1962-66
<b>E</b>	colour picture, "MATCHBOX" in arch	1964-68
<b>F</b>	colour picture, "MATCHBOX" straight	1969
<b>G</b>	colour picture, "MATCHBOX" italic	1970-75
<b>H</b>	colour picture, "MATCHBOX" bold italic with tyre	1971-76
<b>I</b>	colour picture, "MATCHBOX" bold italic	1972-79
<b>J</b>	colour picture, "MATCHBOX" in oval, number/name in centre	1975-82
<b>K</b>	colour picture, "MATCHBOX" in oval, number/name at bottom	1976-82
<b>L</b>	colour picture, "MATCHBOX" in oval, colour picture on side	1977-82

## **6 Line Drawing Boxes (A, B and C Types)**

This section deals with the earliest Matchbox boxes, the so-called line drawing boxes issued from 1953 to 1961. In keeping with tradition, these boxes are subdivided into three types distinguished by the style of lettering below the model picture on the box front:

Type	Lettering below model picture	Years of issue
A	A Moko LESNEY in scroll (Moko in script)	1953-54
B	A MOKO LESNEY in scroll (MOKO in capitals)	1955-60
C	A LESNEY in scroll	1961

Types A and C were issued for a short time only, so there is no need for further subdivision.

With type B, however, the following five sub-types can be distinguished by the designs of the end flaps:

Type	End flap design	Years of issue
B1	no number (plain blue)	1955-56
B2	black number	1957-58
B3	black number in white circle	1958-59
B4	black number in white circle, black model name in white panel	1959
B5	black number in white circle, white model name	1960

The end flap design of type A is identical to type B1, that of type C is identical to type B5.

The numbers on the end flaps of B2 type boxes come in at least three different sizes and styles; these differences are, however, not dealt with in the subsequent list of boxes.

The model names on the end flaps of B4 and B5 type boxes are usually written in lowercase letters, but a few of them are all uppercase:

L	model name in lowercase letters
U	model name in uppercase letters

Starting with type B5, some boxes feature the words "New model" on the end flaps:

N	"New model" on end flaps
X	no "New model" on end flaps

Box dimensions range from 1 to 5. The smallest size 1 exists only with types A, B1 and B2. Size 2 extends from type A to type B3. Size 3, which first appears with the B1 type box of 23.1 Berkeley Cavalier, is the standard size for most boxes from type B2 to type C. All B1, B2 and B3 type boxes of this size have blue strips to the left and right of the model pictures, whereas on all later boxes the yellow background colour extends to the full length of the box front.

Size 4 is used for a few larger models starting from box type B5. Finally, there is only one model from this era which has a box of size 5, 40.2 Leyland Coach (C type only).

**7 D Type Boxes**

D type boxes - the first boxes showing colour pictures - were issued for all Matchbox models that existed in the range in 1962 and 1963. From 1964 onward, new models were issued in E type boxes, but all older models which remained in the range retained their D type boxes until 1966.

Major box sub-types:

<b>D1</b>	end flap lettering with serifs
<b>D2</b>	end flap lettering without serifs

Sides:

<b>1BS</b>	one blue side (other side is black)
<b>2BS</b>	two blue sides
<b>LBS</b>	two light blue sides

Existing combinations of variable values with probable years of issue:

Type	Sides	Year
D1	1BS	1962
D2	1BS	1963
D2	2BS	1965
D2	LBS	1966

"NEW MODEL" on end flaps:

<b>N</b>	"NEW MODEL" on end flaps
<b>X</b>	no "NEW MODEL" on end flaps

Box dimensions: 3, 4, 5 or 7

In the following list, an asterisk (\*) denotes the existence of noticeable shade differences, which is in most cases valid for all boxes of the respective model.

**9 F Type Boxes**

This is a suggestion for a new scheme to be used as a basis for cataloguing the F generation of boxes used for Matchbox Series 1-75 models in 1969 and 1970.

This scheme can and should be used to describe boxes for both regular wheel and Superfast models in the same manner.

As there are so many different variables associated with the design of the F type boxes, it is not practical to combine individual values of some variables to form sub-types of F boxes, as is common practice with the earlier generations of Matchbox boxes (particularly B, D and E). Previous attempts to do this have proved not entirely satisfactory.

Instead, each variable should be considered separately. The following definitions set up a domain for each of the variables:

1. Wheels of model shown:

<b>REG</b>	Regular
<b>SUP</b>	Superfast

2. Additional text:

<b>NON</b>	none
<b>AST</b>	"AUTOSTEER"
<b>RSF</b>	red "Superfast"
<b>BSF</b>	black "Superfast"

3. Colour and position of "SERIES":

<b>WIB</b>	white in blue number box
<b>RUB</b>	red under oblong blue number box
<b>RLB</b>	red left of blue number box

4. Lettering at bottom:

<b>ALP</b>	A LESNEY PRODUCT
<b>LPC</b>	LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND
<b>MIR1</b>	"MATCHBOX" IS THE REG'D. T.M. OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND
<b>MRT1</b>	"MATCHBOX" REG'D. T.M. LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

5. Side design:

<b>DR</b>	drawings of the model
<b>SF</b>	"Superfast" lettering

6. "NEW" on end flaps:

<b>N</b>	"NEW" on end flaps
<b>X</b>	no "NEW" on end flaps

7. Box dimensions: 5, 6 or 7

Using these domains and the mnemonic abbreviations given, one can construct a tabulated list of all the boxes. In this list one separate line is devoted to each different box.

No attention has been paid to further variables like colour shades and the various forms of small lettering at the box end closers. Such variations may occasionally be included in the list in the form of additional notes.

**10 G Type Boxes**

This is a suggestion for a new scheme to be used as a basis for cataloguing the G generation of boxes used for Matchbox Series 1-75 models in 1970 and 1971 (for a few models even until 1975).

This scheme can and should be used to describe boxes for both regular wheel and Superfast models in the same manner. (There are only five different regular wheel models for which G boxes exist.)

Similarly to the F type boxes, there are many different variables associated with the design of the G type boxes. It is therefore once again practical to consider each variable separately. The following definitions set up a domain for each of the variables:

1. Lettering at bottom:

<b>MIRI</b>	"MATCHBOX" IS THE REG'D. T.M. OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND
<b>MRT1</b>	"MATCHBOX" REG'D. T.M. LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND
<b>NONE</b>	lettering omitted

2. Side design:

<b>DRA</b>	drawings of the model
<b>SFP</b>	"Superfast" lettering parallel to edge
<b>SFA</b>	"Superfast outraces them all" at an angle to edge

3. "TM" letters attached to "Superfast":

<b>BLK</b>	black "TM" on front, black "TM" on side
<b>RED</b>	red "TM" on front, black "TM" on side
<b>NON</b>	no "TM" on front, no "TM" on side

4. "NEW" on end flaps:

<b>N</b>	"NEW" on end flaps
<b>X</b>	no "NEW" on end flaps

5. Box dimensions: 5, 6 or 7

Using these domains and the mnemonic abbreviations given, one can construct a tabulated list of all the boxes. In this list one separate line is devoted to each different box.

No attention has been paid to further variables like colour shades and the various forms of small lettering at the box end closers. Such variations may occasionally be included in the list in the form of additional notes. An asterisk (\*) denotes the existence of recognizable shade variations.

The variables "wheels of model shown" and "additional lettering", which are used in the descriptions of F boxes, seem not to be necessary for G boxes as each of them would have one value for the five regular wheel boxes and just one other value for all the other boxes (the additional lettering being "Superfast").

**11 H Type Boxes**

H type boxes were issued for just a few models in late 1970 and 1971. As there are so few of them, they do not have as many variables as their predecessors and can therefore easily be subdivided into three sub-types:

Type <b>H1N</b>	black number (with red "NEW" lettering) inside a red frame, no "Superfast" lettering nor model name on front
Type <b>H2N</b>	black number (with red "NEW" lettering) without frame, "Superfast" lettering and model name on front
Type <b>H2</b>	black number (without "NEW" lettering) without frame, "Superfast" lettering and model name on front

Other features which are variables with F and G type boxes are constant in the case of H type boxes:

The lettering at the bottom of the front is always of the type **MRT2**:

© 197x "MATCHBOX" REG'D T.M. LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

The year can be 1970 or 1971, but this remains constant for any individual model.

The side design always features a detail drawing of the model, accompanied by a "TESTED" mark and surrounded by the following constant text:

RACING SUSPENSION / HIGH SPEED MAG-WHEELS

Box dimensions are the same as with previous types, however most boxes are of the narrowest size type 5. There are no variations within one individual model.

In the following tabulated list of H type boxes there is only one line for each model as this suffices to record every variation.

H	Model name	Year	Size	H1N	H2N	H2	Notes

**12 I Type Boxes**

I type boxes were issued from late 1971 to 1974, for most models that were available during that period, except for a few that retained their G or H type boxes until the end of their career.

Some I type boxes survived until 1979, so some changes that occurred during the late seventies meeting legal requirements in various European countries did apply to them.

This usually means some texts in small print being added to the box design. Consequently these texts constitute one of the main variables used for describing these boxes. The following nine types of bottom and side text combinations can be distinguished:

a. Type **MRT3**:

bottom text on both fronts:

© 197x "MATCHBOX" REG'D T.M. MARCA REGISTRADA  
LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

no text on sides

b. Type **MRT3/CNG**:

bottom text on one front same as MRT3,  
bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

no text on sides

c. Type **MRT3/CNN**:

bottom text on one front same as MRT3,  
bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS

no text on sides

d. Type **MRM**:

bottom text on both fronts:

MARCA REGISTRADA © 197x "MATCHBOX" REG'D T.M.  
LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

no text on sides

e. Type **MIR2**:

bottom text on both fronts:

side text types:

3. © 197x LESNEY PRODUCTS & CO. LTD. MADE IN ENGLAND

7. © 1974 LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND  
(only 35.4)

(side text may be black (**B**) or white (**W**))

f. Type **MIR2/NRC**:

bottom text on both fronts same as MIR2,  
additional text top right:

Not recommended for children under 3.

text on sides same as MIR2

g. Type **MIR2/CNG**:

bottom text on one front same as MIR2,  
bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

text on sides same as MIR2

h. Type **MIR2/CNN**:

bottom text on one front same as MIR2,  
bottom text on other front replaced by:

i. Type **MMR3/2**:

bottom text on both fronts:

"MATCHBOX" (MARCA REGISTRADA) REGISTERED TRADE MARK  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

rectangle on one side, **two** line text inside top of rectangle:

NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS

one line text inside bottom of rectangle:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

A further variable feature is the presence or absence of the "NEW" lettering immediately above the model number on the box fronts, in this case combined with the presence or absence of a red frame surrounding the number (and "NEW" lettering).

The following four combinations exist:

<b>RNF</b>	red "NEW" lettering, red frame
<b>BNF</b>	black "NEW" lettering, red frame
<b>F</b>	no "NEW" lettering, red frame
<b>X</b>	no "NEW" lettering, no frame

Other variable features are constant for any particular model:

Additional lettering on the fronts to the right of the "MATCHBOX" name and/or on the sides denotes the class of the model contained in the box:

<b>SUP</b>	"SUPERFAST" in block capitals on sides
<b>Sup</b>	"Superfast" in script on sides
<b>ROL</b>	"Rola-matics" on fronts and sides
<b>CHO</b>	"Choppers" on fronts, "Superfast" on sides
<b>NON</b>	no additional lettering

There are further smaller white texts on the sides describing some features of the model contained. Each of these texts is attached to a blue, black and white detail picture of the respective model. There are eleven different texts in total, four of which are used for many models, the remaining seven for just a few or only one each:

<b>Abbreviation</b>	<b>Text</b>	<b>Models</b>
<b>FCS</b>	'FAT-WHEEL' CUSHION SUSPENSION	46.4
<b>HCS</b>	HI-SPEED 'CROSS COUNTRY' SUSPENSION	-
<b>HFS</b>	HI-SPEED FREIGHTLINE SUSPENSION	-
<b>HHR</b>	HI-SPEED HEAVY-DUTY ROLLERS	21.5
<b>MRS</b>	MAG-WHEELS-RACING SUSPENSION	-
<b>MPT</b>	METALLIZED PARTS AND TOWING HOOK	12.5
<b>SAF</b>	SUPERFAST 'AUTOMATIC' FEATURES	-
<b>STC</b>	SUPER TRACTION CATERPILLAR TRACK	12.5
<b>WRT</b>	WIDE RACING-SLICKS TORSION SPRINGING	38.4, 49.3, 71.4
<b>PTF</b>	WITH PROP-STAND AND TURNING FRONT FORKS	18.6
<b>4HS</b>	4-WHEEL 'HOVERSPRING' SUSPENSION	72.3

The year given on the boxes can be 1971, 1972, 1973 or 1974, however MMR3 boxes have the year 1978 printed below the rectangle on one side (no year on the other side).

Box dimensions are the same as with previous types (5, 6 and 7).

## **13 J Type Boxes**

J type boxes were issued from late 1974 to early 1976, for all new models that came out during that period, as well as for all recoloured Streaker models and for all Rola-matic and a few other models issued previously in I type boxes.

These were the first single-colour boxes, breaking away from the yellow and blue schemes that had been used before. They are distinguished from later types of single-colour boxes by the following features:

- no model pictures on the sides
- picture background on box fronts made up of lines giving the impression of speed, model usually shown racing towards the viewer
- very wide, fat white model number on the box fronts to the left of the model picture, in the middle between top and bottom
- "NEW" lettering (if present) with thin, low black letters above the model number (letters much smaller than number)
- model name in thin, small white letters below the model number
- additional lettering (model class) below the model name

Some J type boxes survived until the very end of picture boxes in late 1982, so many changes that occurred during the late seventies meeting legal requirements in various European countries did apply to them.

This usually means some texts in small print being added to the box design. Consequently these texts constitute the main variables that make up the following nine box types:

a. Type **MIR2**:

bottom text on both fronts:

"MATCHBOX" IS THE REG'D TRADE MARK (MARCA REGISTRADA)  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

text on sides:

© 197x LESNEY PRODUCTS & CO. LTD. MADE IN ENGLAND

no rectangle on sides

b. Type **MIR2/NRC**:

bottom text on both fronts same as MIR2,  
additional text top right:

Not recommended for children under 3.

text on sides same as MIR2, no rectangle on sides

c. Type **MIR2/CNG**:

bottom text on one front same as MIR2,  
bottom text on other front replaced by:

text on sides same as MIR2, no rectangle on sides

bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS

text on sides same as MIR2, no rectangle on sides

e. Type **MMR3/2**:

bottom text on both fronts:

"MATCHBOX" (MARCA REGISTRADA) REGISTERED TRADE MARK  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

rectangle on one side, **two** line text inside top of rectangle:

NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS

one line text inside bottom of rectangle:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

f. Type **MMR3/4A**:

bottom text on both fronts same as MMR3/2

rectangle on one side, **four** line text inside top of rectangle:

CAUTION: CONTAINS SMALL PARTS.  
NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS.  
ATTENTION! CONTIENT PETITES PIÈCES.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS.

one line text inside bottom of rectangle:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

g. Type **MIR3/2**:

bottom text on both fronts:

"MATCHBOX" IS THE REGISTERED TRADE MARK (MARCA REGISTRADA)  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

rectangle on one side, **two** line text inside top of rectangle:

rectangle on one side, **four** line text inside top of rectangle:

CAUTION: CONTAINS SMALL PARTS.  
NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS.  
ATTENTION! CONTIENT PETITES PIECES.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS.

one line text inside bottom of rectangle:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

i. Type **MIR3/5A**:

bottom text on both fronts same as MIR3/2

rectangle on one side, **five** line text inside top of rectangle:

NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS.  
CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.  
NON ADATTO AD UN BAMBINO DI ETA MINORE AL 36  
MESI. CONFORME PRESCRIZIONE DM 31.7.79.

All types can be subdivided further by the presence or absence of the "NEW" lettering immediately above the model number on the box fronts:

<b>N</b>	"NEW" above number
<b>X</b>	no "NEW" above number

Other variable features are constant for any particular model:

Additional lettering on the fronts below the number and model name denotes the class of the model contained in the box:

<b>SUP</b>	"Superfast"
<b>ROL</b>	"Rola-matics"
<b>STR</b>	"Streakers"

Model names on the end flaps are usually white, just most Streaker boxes have black model names on the end flaps.

The year given on the sides can be 1974 or 1975, however MMR3 and MIR3 boxes have the year 1978 printed below the rectangle on one side (which means that these boxes have two different years printed on them).

Box dimensions are the same as with previous types, however the intermediate size type 6 seems not to exist with J type boxes.

## **14 K Type Boxes**

K type boxes were issued in 1976 and 1977 for a few new models that came out during that period. Many survived until 1982.

The K box design is an intermediate between the preceding J and the subsequent L types. It can be distinguished from those by the following features:

- no model pictures on the sides
- no picture background other than lines on box fronts
- fat white model number on the box fronts bottom left, immediately above the model name
- "NEW" lettering (if present) with fat white letters above the model number (same size as number, leaving a gap)
- model name in thin, small white letters below the model number
- additional lettering (model class) only on end flaps

The main variables are once again texts in small print at the bottom of the box fronts and inside a rectangle on one side, which was introduced in late 1978. These variables constitute the following ten box types:

a. Type **MMR1**:

bottom text on both fronts:

"MATCHBOX", "MARCA REGISTRADA" REGISTERED TRADE MARK  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

text on sides:

© 197x LESNEY PRODUCTS & CO. LTD. MADE IN ENGLAND

no rectangle on sides

b. Type **MMR1/CNG**:

bottom text on one front same as MMR1,  
bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.

text on sides same as MMR1, no rectangle on sides

c. Type **MMR1/CNN**:

bottom text on one front same as MMR1,  
bottom text on other front replaced by:

CONFORMITÉ AUX NORMES GARANTIE PAR LESNEY S.A.  
NE CONVIENT PAS À UN ENFANT DE MOINS DE 36 MOIS

text on sides same as MMR1, no rectangle on sides

g. Type **MMR3/2**:

bottom text on both fronts:

"MATCHBOX" (MARCA REGISTRADA) REGISTERED TRADE MARK  
OF LESNEY PRODUCTS & CO. LTD. LONDON ENGLAND

rectangle on one side, **two** line text inside top of rectangle:

NOT RECOMMENDED FOR CHILDREN UNDER 36 MONTHS

All types can be subdivided further by the presence or absence of the "NEW" lettering above the model number on the box fronts:

<b>N</b>	"NEW" above number
<b>X</b>	no "NEW" above number

Other variable features are constant for any particular model:

Additional lettering on the end flaps denotes the class of the model contained in the box:

Abbreviation	Text	Models
SUP	"Superfast"	-
ROL	"Rola-matics"	70.4
NON	no additional lettering	75.4

Model names on the end flaps are generally white.

The year given on the sides is always 1976, the only exception being the special Silver Jubilee box for 17.6, which has 1977. As with J type boxes, MMR3 and MIR3 boxes have the year 1978 printed below the rectangle on one side.

Box dimensions are mostly of type 7, only in some cases the narrow type 5.

**15 L Type Boxes**

L type boxes were issued from 1977 until 1982 for all new models that came out during that period as well as for some older models which had been issued in I, J or K type boxes and were still available in the range.

The L box design was the very last generally available type of picture box made individually for each model. It can be distinguished from its predecessors by the following features:

- coloured model picture on at least one side
- individual picture background on box fronts
- fat model number on the box fronts bottom left, immediately above the model name
- "NEW" lettering (if present) with fat letters immediately above the model number (same size as number, no gap)
- model name in thin, small letters below the model number
- additional lettering (model class) only on end flaps

The main variables are once again texts in small print at the bottom of the box fronts and inside a rectangle on one side, which was introduced in late 1978. These variables constitute the following thirteen box types:

a. Type **MMR2**:

bottom text on both fronts:

All types can be subdivided further by the presence or absence of the "NEW" lettering above the model number on the box fronts:

<b>N</b>	"NEW" above number
<b>X</b>	no "NEW" above number

Boxes issued in 1982 generally have no "NEW" lettering any more, even though the respective models were in fact mostly new ones.

Other variable features are constant for any particular model:

Additional lettering on the end flaps denotes the class of the model contained in the box:

<b>Abbreviation</b>	<b>Text</b>	<b>Models</b>
<b>SUP</b>	"Superfast"	-
<b>ROL</b>	"Rola-matics"	70.4
<b>NON</b>	no additional lettering	-

On boxes issued from 1980 onward, the "Superfast" lettering was generally not included on the end flaps any more.

Model names on the end flaps are white or black, without any particular reason or scheme.

Years given on the sides range from 1976 to 1981, which means that even the last boxes issued in late 1982 still have 1981 printed on them.

Box dimensions are mostly of type 7, only in some cases the narrow type 5. All boxes issued in 1982 are of the wide type 7, even though some of the models contained would fit into narrower boxes as well.

**16 Japanese Boxes**

The following types of Matchbox picture boxes - all featuring Japanese lettering - were made especially for the Japanese market from 1977 to 1979, in connection with re-releases of some older Matchbox models which had already been replaced in the worldwide range, and with some models actually made for Matchbox in Japan:

Type A	black box with red and grey stripes
Type B1	white front, red side, number with "J-" prefix
Type B2	white front, red side, number without "J-" prefix
Type C	single-coloured box (similar to worldwide L type)

In the following list, all known boxes issued especially for the Japanese market are listed with the Japanese model numbers printed on them. Other models which were re-released in Japan had the same numbers and box designs as had been used worldwide before.

Jap	Model name	A	B1	B2	C	Size	Notes
05.5	Lotus Europa	J-2				5	also I box (no.18)
07.5	VW Golf		J-10			7	ADAC version
14.4	Iso Grifo	J-3				5	
15.4	VW 1500	J-6				5	also H box (no.30)
24.3	Rolls-Royce Silver Shadow	J-4				5	
27.4	Mercedes 230 SL	J-9	J-31	31		5	
27.5	Lamborghini Countach		J-14			5	Streaker version
32.4	Maserati Bora		J-12			5	
33.3	Lamborghini Miura	J-1	J-38		38	5	brown C box
41.3	Ford GT	J-5	J-25	25		5	
45.4	BMW 3.0 CSL		J-11			5	Polizei version
52.3	Dodge Charger Mk 3	J-8	J-8			5	
66.4	Mazda RX 500		J-19			5	Streaker version
75.3	Alfa Carabo	J-7	J-75	75		5	Streaker version
76.1	Mazda RX 7				2	5	orange C box
77.1	Toyota Celica GT		J-21	47		5	
78.1	Datsun 280 ZX				5	5	pink C box
79.1	Mitsubishi Galant		J-22	70		5	

The last four models were made in Japan and are catalogued under the numbers 76 to 79, which were later allocated to them when they were made in Hong Kong for the Australian market (and issued there in L type boxes).

**17 German Picture Window Boxes**

In 1979, the whole Series 1-75 range was issued in Germany only in special yellow window boxes with red borders, each of which was attached to a card showing colour photographs of the individual model contained.

These boxes were actually printed in Germany. They were used approximately until 1982, but the boxes for new models issued from 1980 onward did not have cards with individual pictures any more, instead a generic design depicting a road scene was used. Usually the number of the model contained was then stamped onto the card. By and by this generic design replaced all the individual styles.

For the following models individual picture window boxes are known to exist:
